

# SALLI SLIM

## Affordable, narrow model

The lightweight and affordable chair has all the good features of a two-piece chair. One-piece black polyurethane seat with a groove in the middle. Salli Slim is designed for children and women who want a smaller seat. Made in China, with Finnish design.

### SEAT

- Solid black polyurethane seat, groove in the middle.
- Models: Salli Slim Basic, Salli Slim Tilt (tilting, Salli Slim Swing (swinging).
- Also available with a protective seat cover (wool or polyester)

### TECHNICAL FEATURES

- Weight: Light Basic 5.8 kg, Light Swing 6 kg, Light Tilt 7.5 kg
- The chair must not be used or stored in temperatures lower than + 5 °C
- Warranty 5 years

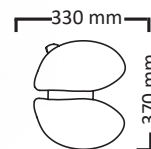

### GAS SPRINGS

	User height (cm)	Chair height SLIM BASIC (mm, min-max). with plastic base	Chair height SLIM TILT (mm, min-max). with plastic base	Chair height SLIM SWING (mm, min-max). with plastic base
Short	<150	455-580	470-600	460-585
Medium	150-170	525-715	545-735	535-715
Long	>165	635-885	630-885	615-870

Mini gas spring is available for special circumstances; use depends on the working height, not on the height of the user.

#### Note!

If you are using industrial or inline castors, the chair is 35 mm higher than the measurements shown in the table.

### BASES

#### Plastic base, small

- Ø 480 mm
- Black

#### Aluminium base

- Ø 540 mm, aluminium
- Metallic or black

### CASTORS

#### Soft standard

- Ø 65 mm
- For hard floors

#### Inline Industrial

- Ø 75 mm
- For uneven floors, ideal also for hair-dressers and on wall-to-wall carpets

# ACCESSORIES

## Suitable For Salli Light

### ALLROUND

Allround moves freely on all sides of the chair, and also around its own axis. Can be used as a support for either one arm or both arms. Ø 600 mm base required.

### ELBOW REST

Comfortable and steady support for the forearms on the sides and in front. Relaxes the shoulders by carrying the weight of the arms. Good for any precise work. Simple height and distance adjustment (15 cm, 5 cm). Can only be used with Basic and Swing models.

### ERGOREST

Movable forearm supports on the sides. Suits many types of work, moves very smoothly on a constant level around their pivot point. The comfortable support is 20 cm long. It moves 28 cm back and forth and 28 cm sideways. Can only be used with Basic models.

### STRETCHING SUPPORT

Stretching Support is meant for momentary stretching only. A backrest isn't needed, because in a balanced position the spine supports the upper body and the muscles can remain relaxed. Can only be used with Tilt models.

### TOB & BOTTOM

Enables height adjustment without using the lever by hand. Recommended for hygienic environments, such as operating theatres and dental clinics. Ø 540 mm aluminium base required.

### FOOT SUPPORT

A perfect accessory for high workstations to support the feet. Recommended for temporary use only. Ø 460 mm.
